

Zoom United

Unify phone, meetings, and chat into one simple solution and save!

Consolidating your communications with Zoom streamlines workflows and makes collaborating seamless, while scaling for businesses of all types and sizes. Expanding your Zoom experience to include Meetings, Phone, and Chat, will reduce administration, increase productivity and streamline your workflows. With Zoom, your team can communicate and collaborate wherever you want, however you need.

Modernize your meeting solution

Simple and robust

Zoom Meetings is made for the way people connect. Filters, reactions, polls, hand-raising, and music or video sharing in one easy interface.

Secure

Advanced encryption, in-meeting security controls and industry-leading features ensure your information is safe.

Flexible

From 2 - 1,000 participants, on desktop, mobile and tablets, and thousands of integrations Zoom Meetings can enhance just about any workflow.

Connect your business with Zoom Phone

Make and receive calls from anywhere

Zoom Phone goes where you go. Use your computer, a mobile device or traditional desk phone.

Simple to provision and manage

You don't have to be an IT Expert to manage Zoom Phone. Our administrator portal will guide you through step-by-step setup.

Secure and reliable

The globally distributed Zoom cloud platform delivers secure HD Voice with enterprise-class reliability and quality of service.

Connect instantly on Zoom Chat

Real time communication

Zoom Chat grounds your business communications with instant internal and external messaging. Start a meeting or phone call directly from chat.

Endless Organization

Start public or private group chats, search, star, tag people or content, pin and add internal or external contacts.

Powerful integrations

Zoom Chat adapts to any workflow for sales, marketing, operations, contact center and more with our expansive feature capabilities and numerous integrations.
